The Hospitality Industry

The World is Your Playground... GO FOR IT!

With the Indian economy rising the above all expectations, the service sector is poised to become the key money spinner in the future. The process has already started and its effect is evident in the growth of the banking and financial sector, the IT sector and above all in the hospitality and tourism sector. Statistically, the stage is set when a new luxury hotel is being built in every 45 days, somewhere in the country. This figure does not include the large number of hotels that are planned and built for the future international events. Conservative estimate indicates that within four years from now, almost 4 to 5 Lakh high quality skilled hospitality manpower is required in this industry alone, to run these hotels. With significant global growth opportunities, international chains like Marriott International, Intercontinental, Hilton, Four Seasons, and other heavyweights have lined up to expand here in a big way. The career prospects in the hospitality industry are high paced, diverse and promise highly progressive growth in a wide range of areas. Here at IIHM the curriculum is designed on the lines of international education and is conducted by highly qualified professionals both from India and abroad and is supported by intensive practical sessions real time, at the institute owned luxury hotels. In addition to the hotel industry, IIHM students are the first choice of the employers in the other spearheading service sectors like the IT sectors, Banking & Financial sectors, Industrial & Institutional Catering & Lodging sectors, the BPO & KPO sectors, the ever exploding international retail sectors and many more.

A few of the lucrative positions that this career offers are - Hotel/Resort Manager, Food & Beverage Manager, Banquet & Conferencing Manager, Outlet Manager, Training and Learning & Development Manager, Rooms Division Manager, Executive Housekeeper, Executive Chef, F&B Controller, Team Leaders, Retail Outlet Manager and others.

In just about 3 years and with a degree from IIHM, students launch themselves in this exciting industry where sky is the only limit and the workplace is a country of their own choice - India, Europe, Australia, New Zealand, Middle East, USA, Canada and almost everywhere else.
