The Hospitality Industry

The World is Your Playground... GO FOR IT!

With the Indian economy rising the above all expectations, the service sector is poised to become the key money spinner in the future. The process has already started and its effect is evident in the growth of the banking and financial sector, the IT sector and above all in the hospitality and tourism sector. Statistically, the stage is set when a new luxury hotel is being built in every 45 days, somewhere in the country. This figure does not include the large number of hotels that are planned and built for the future international events. Conservative estimate indicates that within four years from now, almost 4 to 5 Lakh high quality skilled hospitality manpower is required in this industry alone, to run these hotels. With significant global growth opportunities, international chains like Marriott International, Intercontinental, Hilton, Four Seasons, and other heavyweights have lined up to expand here in a big way. The career prospects in the hospitality industry are high paced, diverse and promise highly progressive growth in a wide range of areas. Here at IIMH the curriculum is designed on the lines of international education and is conducted by highly qualified professionals both from India and abroad and is supported by intensive practical sessions real time, at the institute owned luxury hotels. In addition to the hotel industry, IIMH students are the first choice of the employers in the other spearheading service sectors like the IT sectors, Banking & Financial sectors, Industrial & Institutional Catering & Lodging sectors, the BPO & KPO sectors, the ever exploding international retail sectors and many more.

A few of the lucrative positions that this career offers are - Hotel/Resort Manager, Food & Beverage Manager, Banquet & Conferencing Manager, Outlet Manager, Training and Learning & Development Manager, Rooms Division Manager, Executive Housekeeper, Executive Chef, F&B Controller, Team Leaders, Retail Outlet Manager and others.

In just about 3 years and with a degree from IIMH, students launch themselves in this exciting industry where sky is the only limit and the workplace is a country of their own choice - India, Europe, Australia, New Zealand, Middle East, USA, Canada and almost everywhere else.

When the world of food met at IHHM Kolkata, for a better world
At the United World of Young Chefs, a non-competitive event, of YCO25, 50 chefs, dressed in their national attire, cooked their national dish, in one of the finest examples of culinary diplomacy. Dr Suborno Bose Chairman, IHHM & Chairman YCO told the media "This is culinary nationalism; flavoured with unity as an essence of mankind. This is beyond just food, but food is indeed the X factor, which brings so many nations across the world in this beautiful Young Chef's movement, a movement of harmony"

Amidst culinary talents from 50 countries, Chef Kamran Akmal of England bagged the YCO Gold at the Grand Closing Ceremony of the epic 11th IHHM Young Chef Olympiad. Armenia's Arsen Amenakyan won the YCO Silver, while the Philippines' Yves Gabriel Cabrera Po secured the YCO Bronze Trophy.

India's presence on the winners' list was ensured as India's Aliakbar Mustafa Rampurawala, of IHHM Bangalore, made the country proud. Additionally, UAE's Jasmin Ali Maber Luffi Jantar won the Dr. Suborno Bose Culinary International Challenge prize, where chefs from two countries teamed up to compete.

The YCO Champion was chosen after two rounds of tough competition among the best culinary talents from around the world.

Dr. Suborno Bose, Chairman of the Young Chef Olympiad, said, "This YCO is possibly the best we have seen, as YCO continues to evolve. The world has been challenged, but this has not stopped countries from traveling. The YCO is a celebration of food and of young people coming together to spread the spirit of happiness and togetherness."

On a magical night in Kolkata, all were winners as the united world of young chefs proudly celebrated themselves as ambassadors of culinary diplomacy.
